A fragrance that tells your story

In Persian, “Nafé” means musk (a small pouch located beneath the abdomen of the male deer that has an opening through which musk is released). In 1399 (2020), Nafé began its activity as an Iranian luxury brand in the world of fragrances with the goal of creating a different and lasting experience. Its first products were home fragrances in 250 ml and 1000 ml sizes, and over time the product range expanded to include personal perfumes, car fragrances, and luxury candles. Each Nafé product is designed and crafted with exceptional quality using luxury crystal bottles. With a variety of more than 60 scents, they are produced in three collections: Classic, Iran, and Gold. To support consumers, 500 ml refill crystal bottles have also been designed. More than just a scent, every fragrance creates an atmosphere, shapes your identity, and offers a unique, authentic, and luxurious experience.
